A.C.E. Building Service chosen as design/build contractor for Lakeside project

A.C.E. Building Service of Manitowoc was selected as the design/build contractor for a new storage facility for Lakeside Foods' Manitowoc division. The building, which will be located at Lakeside's carrot washing station in Shoto, will be a 16,000-square-foot, stand-alone building.

The facility is designed to store carrots in the fall after they have been washed and before they go to processing, creating a more efficient process that also protects the vegetables from freezing. Construction began this spring and will be completed in early summer.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease.
