A.C.E. Building Service chosen as design/build contractor for Country Visions Cooperative

A.C.E. Building Service of Manitowoc was chosen by Country Visions Cooperative in Reedsville as the design/build contractor for an upcoming renovation project.

A.C.E. will be renovating an existing building located in the Village of Reedsville (previously occupied by Reedsville Furniture) into new office space for the cooperative, which is a newly-formed company created by the recent merger of Valders Cooperative, Country Horizons Cooperative and their subsidiaries.

The renovation will combine the former company's two offices into one new facility, offering enhanced operational efficiencies. The 7,200 square-foot project will create interior office space for both cubicles and hard wall offices, plus the exterior will receive a face lift that includes new panel, windows, masonry and lap siding.

Construction is slated to being at the end of April.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease.
