A.C.E. Building Service selected as contractor for Kitzerow expansion

A.C.E. Building Service of Manitowoc has been selected as general contractor for an expansion project at Kitzerow Machine in Manitowoc.

A.C.E. will construct a 1,600-square-foot warehouse to help meet growing space needs of the Manitowoc-based machining business. The project also includes the installation of Orion light pipes in the building to help conserve energy, save money, and have a more “green” building. A.C.E. partnered with Orion last year to develop a precise process to install their Apollo® Light Pipe in metal buildings.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to Manitowoc and Sheboygan Counties.
