## **NEWS RELEASE**

**Date:** February 6, 2012  
**Contact:** Stan Johnson, (920) 682-6105

### **A.C.E. Building Service updated on industry trends at national program**

Stan Johnson and Chris Herzog of A.C.E Building Service attended the Jack Miller Network Annual Meeting in January to learn about the latest trends in design/build construction and network with their peers on how to be one of the most cost-efficient, quality-oriented and profitable contractor in the industry.

Held in Orlando, Florida, the program included more than 40 half-day focus groups on topics ranging from computers and design/build to leadership and jobsite management - all led by member volunteers with real world experience. Four one-hour peer group discussions with eight to 10 similar-sized, non-competitive firms were also held to discuss the latest industry trends.

Jack Miller Network is an elite organization of over 700 construction industry firms from throughout the U.S. and Canada. At the annual meeting in January each year, Network members gather to trade their successes and failures, from financial and marketing programs to safety and management strategies.

Founded in 1963, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to Manitowoc and Sheboygan Counties.
