A.C.E. Building Service chosen for metal re-roof at Dramm Corporation

Dramm Corporation in Manitowoc has chosen A.C.E. Building Service for a metal re-roof project at their manufacturing facility, located at 2000 North Eighth Street in Manitowoc.

A.C.E. will install Butler Manufacturing Company's MR-24 standing seam roof system over 7,000 square feet of Dramm's 55,000 square-foot facility that is ~~worn down and~~ in need of replacement.

According to A.C.E.'s Bill Shimek, "This is the final section of their facility that needed to upgrade to the MR-24 metal system. Now Dramm's entire facility is under this long lasting roofing solution. The MR-24 is a durable, weather-tight system great at protecting a building from the elements."

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to Manitowoc and Sheboygan Counties.

Dramm manufactures and distributes a complete line of professional greenhouse tools worldwide.
