A.C.E. Building Service completes addition at Viking Packaging

A.C.E. Building Service of Manitowoc has completed construction of a new 3,900-square-foot Butler metal building addition at Viking Packaging Technologies of Kohler.

The addition to the company's production area provided much-needed space for the growing Sheboygan County manufacturer. The design/build project also included remodeling of existing offices, including a new conference room and engineering room.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to Manitowoc and Sheboygan Counties.

Viking Packaging Technologies, Inc. is an experienced manufacturer and provider of industry-hardened, state-of-the-art Viking packaging machinery for the packaging industry.
