A.C.E. Building Service employees attend “G2B” green conference

MANITOWOC: Stan Johnson, PE, LEED AP; and Chris Herzog, LEED AP; A.C.E. Building Service, attended *G2B Practical Green Solutions for your Business*, held April 28 in Appleton.

The daylong program provided practical ideas and examples of how to make a business more environmentally friendly. Workshops focused on topics covering greening business processes, sustainable new construction, greening existing buildings and the latest in sustainable innovations.

While at G2B, Johnson and Herzog also viewed the HVAC Mobile Green Classroom, a 40-foot trailer spotlighting cutting-edge technologies being used in the green movement within the HVAC industry. The trailer’s featured innovative mechanical systems are designed to enhance a building’s energy efficiency while decreasing reliance on nonrenewable resources.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to Manitowoc and Sheboygan Counties.
