A.C.E. completes building addition for Automation Products in Sheboygan

A.C.E. Building Service has completed a building expansion project for Automation Products, 1614 Broadway Ave. in Sheboygan, WI in Sheboygan. The 3,000-square-foot Butler metal building was added on to an existing structure to create new CNC machining space for Automation Products.

Automation Products produces high precision, close tolerance machined components for original equipment manufacturers (OEMs). Whether steel, aluminum, brass, stainless steel, cast iron, or high strength alloys, AP is a single source machine shop for production machining companies throughout the US. For more information, visit apmachining.com.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to Manitowoc and Sheboygan Counties.
