A.C.E. employee starts carpentry apprenticeship program

A.C.E. Building Service employee Ryan Riesterer has started a carpentry apprenticeship to achieve status as a journeyman carpenter. The four-year program is sponsored by A.C.E. and offered through Associated Builders and Contractors, a national trade association for the construction industry and a leader in construction training.

The training combines classroom instruction with on-the-job supervised instruction. Once concluded, Riesterer will have 6,240 hours of training covering such areas as safety, frame and finish carpentry, blueprint reading, and concrete forming and placement. This comprehensive knowledge of the trade will help him on the job at A.C.E. Building Service and in better meeting customer needs.

Riesterer, from Manitowoc, has been an employee of A.C.E. Building Service for 3 years. His father, Al, is a long-term employee at A.C.E. Building Service.

A.C.E. Building Service was incorporated in 1963 and is located in Manitowoc, Wisconsin. They provide commercial and industrial construction services to “Wisconsin’s Lakeshore” counties, including new buildings, expansions, renovations, metal re-roof, facilities maintenance, concrete machine foundations, design/build, and build/lease.
