A.C.E. Building Service completes freezer project for Lakeside Foods

Lakeside Foods Random Lake has selected A.C.E. Building Service for a unique construction project in the food industry: A.C.E. will be replacing the freezer box on an existing individual quick freezer (IQF). This is the second freezer box that A.C.E. has replaced for Lakeside Foods Random Lake.

The project requires a one-of-a-kind, custom engineered design for Lakeside Foods Random Lake, which produces frozen peas and corn, to flash-freeze the vegetables at a temperature as low as 35 degrees below zero.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – throughout Northeast Wisconsin.
