A.C.E. is general contractor for Palmer Johnson Yachts addition

A.C.E. Building Service was selected as the general contractor for a new addition at Palmer Johnson Yachts, LLC, in Sturgeon Bay.

The 15,750 square-foot building will stand 50 feet high and help the manufacturer better accommodate a growing demand for yacht production. The addition will also allow Palmer Johnson to handle large units with overhead bridge cranes. Additionally, by housing hull constructions in an environmentally-friendly and dust-free atmosphere, it will ensure quality production in a state-of-the-art facility and enhance on-the-job safety for employees.

A.C.E. will complete the Palmer Johnson addition in the spring of 2007. A.C.E. Building Service was incorporated in 1963 and is located in Manitowoc, Wisconsin. They provide commercial and industrial construction services to “Wisconsin’s Lakeshore” counties, including new buildings, expansions, renovations, metal re-roof, facilities maintenance, concrete machine foundations, design/build, and build/lease.
