### **A.C.E. Building Service employees loads/codes & optimization seminar**

Bill Shimek and Chris Herzog of A.C.E. Building Service attended a Loads/Codes & Optimization seminar in Madison. Sponsored by Butler Manufacturing Company, the regional training provided information on key financial considerations related to building loads and codes, ensuring that A.C.E. can optimize building solutions for their customers.

The seminar also discussed the latest options, features and benefits of Butler structural systems to help builders best choose the products that meet their clients' project needs.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to the Lakeshore counties.
