A.C.E. Building Service Employees Achieve ACI Certification

Two A.C.E. Building Service employees have achieved special certification demonstrating their high level of craftsmanship in working with concrete: Scott Niven and Troy Juntunen completed the American Concrete Institute (ACI) certification program. The two are now certified as concrete flatwork finishers/technicians – craftsmen who have demonstrated the ability to place, consolidate, finish, edge, joint, cure and protect concrete flatwork.

Certification is only granted to those applicants who pass a written examination, have at least one year (1,500 hours) of approved work experience and successfully complete the ACI performance examination.

A.C.E. Building Service was incorporated in 1963 and is located in Manitowoc, Wisconsin. They provide commercial and industrial construction services to “Wisconsin’s Lakeshore” counties, including new buildings, expansions, renovations, metal re-roof, facilities maintenance, concrete machine foundations, design/build, and build/lease.
