Sandy Bay announces expansion project

Sandy Bay in Mishicot has announced an expansion project, with A.C.E. Building Service selected as the design/build contractor.

The added space will enhance efficiencies throughout their facility by incorporating everything under one roof. It includes expansion of their cooler area as well as a complete utility upgrade. The project should be completed by late summer.

Founded in 1950, A.C.E. Building Service is located in Manitowoc and provides commercial and industrial construction services – including new buildings, expansions, renovations, metal re-roof, facilities maintenance, design/build, and build/lease – to Manitowoc and Sheboygan Counties. They have been a certified Butler builder of pre-engineered metal buildings since 1973.
