A.C.E. BUILDING SERVICE
OUR REPUTATION IS OUR FOUNDATION

STEEL FOREMAN

A.C.E. Building Service is looking for an experienced, hands-on Steel Foreman to lead steel construction projects while keeping safety, quality, productivity, and schedule at the forefront.

This is a working leadership position for someone who knows steel construction, takes pride in quality craftsmanship, and leads by example. You'll oversee field personnel and subcontractors while bringing the hands-on skills, communication, and construction knowledge needed to keep projects moving safely and efficiently.

We work hard, take pride in what we build, and believe work is better when you enjoy the people you're working alongside. At A.C.E. Building Service, we value safety, quality, teamwork, and doing things the right way.

Key Responsibilities

- Lead and oversee field personnel while maintaining jobsite productivity
- Coordinate field personnel and subcontractors to meet quality and schedule expectations
- Supervise the accurate and timely construction of projects
- Communicate project progress to the Construction Superintendent
- Identify and help resolve issues during the construction process
- Ensure safety requirements are followed on the jobsite
- Operate aerial lifts, forklifts, skid steers, and other applicable construction equipment
- Lead and mentor by example while helping keep projects safe, efficient, and on track

Preferred Experience & Qualifications

- Skilled ironworker, millwright, or other applicable construction experience
- Strong leadership skills and the ability to lead and mentor by example
- Knowledge of construction processes and methods
- Experience reading blueprints and designs
- Good organization, prioritization, and problem-solving skills
- A detail-oriented and efficient approach to work
- The physical strength, hand-eye coordination, and endurance necessary for the position, including the ability to stand for extended periods Structural steel and/or pre-engineered steel building experience
- Conventional steel experience
- Certified Welder credentials or the ability to become certified
- A valid Wisconsin driver's license

Ready to Build With Us?
If you know steel construction, know how to lead people, and aren't afraid to work right alongside your crew, we'd like to hear from you.

Bring your experience and leadership to A.C.E. Building Service and help us continue building quality projects with a team that takes pride in getting the job done right.
